### DIRECTIONS:

Use store bought donuts and donut holes. (fig.1)

Divide buttercream icings into small mixing bowls. Tint Wispy White icing to desired color; mix well. Place each bowl into microwave and heat in 10-second intervals, stirring until icing has consistency of syrup. If needed, add a little water to thin icing. (fig.2)

Holding the donut, dunk into icing. Twist donut one quarter turn to adhere icing to the edge of the donut. (fig.3)

Lift the donut and let excess icing run off. (fig.4)

Before icing sets (hardens), decorate with sugars, confetti and candies. (fig.5)

Melt extra icing to drizzle over donuts. Dip Frost it Up spatula into the icing and drizzle away! (fig.6)

Repeat steps 2-6 for donut holes. (fig.7)
